Director of Product Design at Dashlane · FIDO Alliance member

I'm passionate about minimalist and functional design. I lead the design team at Dashlane, focused on making the Internet a safer place by protecting companies' and individuals' sensitive data from breaches, phishing attempts and multiple other risks. As a design system enthusiast, I've helped build two robust multi-platform design systems from scratch — at Talkdesk and Dashlane — which significantly improved the design efficiency and productivity of both teams. I love finding ways to impact design efficiency transversally.

EXPERIENCE

Dashlane

Jan 2023 – Present

Director of Product Design

3 yrs 8 mos · Lisbon, hybrid

- Set vision and strategy for Dashlane in a triad with Product and Engineering leadership.
- Lead the Design System and End-User domain design teams to make Dashlane the best credentials manager.
- Took the design system from an early start to a complete multi-platform system — one shared language across web, desktop, mobile and the browser extension.

FIDO Alliance

Mar 2025 – Present

UX Working Group

Member · remote

Representing Dashlane in the UX Working Group, which works on the experience of adopting and implementing passkeys — running usability research and writing design guidelines that reduce reliance on passwords and smooth the transition to passwordless authentication.

Talkdesk

Sep 2017 – Dec 2022

Five roles over 5 yrs 4 mos · contact-center SaaS · Lisbon, remote

Director of Product Design

Apr 2022 – Dec 2022

Led the design team for the CCaaS unit — the experience for contact-center agents, supervisors and administrators — fully remote.

Associate Director of Product Design

Jan 2021 – Apr 2022

Moved onto the management track while still leading design for the agent experience.

Lead Product Designer

Jan 2020 – Dec 2020

Managed the CCaaS product design team and was lead designer for the Talkdesk Workspace agent applications.

Senior Product Designer

Sep 2017 – Dec 2019

Main designer for the agent experience, focused on the productivity and well-being of contact-center agents. Helped design, build and maintain Cobalt, Talkdesk's design system, from the ground up — so designers could spend their time on experiences instead of pushing pixels.

Bright Pixel

Mar 2016 – Jul 2017

User Experience Lead

Led the UX and Media teams building user-centred content creation and management tools alongside journalists and editors, on projects for the Google Digital News Initiative. Helped incubated startups across media, retail, advertising and telco solve their UX challenges.

Graf.ly

Apr 2016 – Jul 2017

Co-Founder & CEO

A content creation tool for journalists and editors in the newsroom. I owned product definition and user experience alongside the CEO role, including pitching to investors and clients. Winner of Road2WebSummit and the Lisbon Challenge; Alpha Start-Up at Web Summit Lisbon.

SAPO — Portugal Telecom

Mar 2009 – Mar 2016

Head of UX & QA

Sep 2010 – Mar 2016

Built and managed a user-experience team specialised in web, mobile and IPTV usability across SAPO's product portfolio and the MEO TV platform: user testing, heuristic and expert reviews, wireframing, prototyping and accessibility validation — plus day-to-day support for designers and engineers.

UX Designer

Mar 2009 – Aug 2010

Brought UX practice into SAPO and the wider Portugal Telecom group, from B2C (MEO) to enterprise (PT Empresas), making design, engineering and product teams fluent in usability and accessibility.

EARLIER

Founder · MyTVShows, self-employed

2007 – 2014

A web app for keeping track of the episodes of every TV show you were following — roughly what Trakt.tv does today.

Usability Consultant · log, Lisbon

2004 – 2009

Usability consultant and user-centred designer for the web; interaction design focused on usability, web standards and accessibility.

Industrial Ergonomics Consultant · Volkswagen Autoeuropa, Palmela

2003 – 2004

Ergonomic analysis of the paint-line workstation, where workers were reporting stress and strain musculoskeletal disorders in the lower limbs.

Researcher / Consultant · Ergolab, Oeiras

2002 – 2004

Ergonomics research across several areas: usability analysis for multiple websites, plus usability consulting and beta testing for an educational videogame.

Junior HCI Consultant · IconMedialab, Lisbon

2002 – 2003

Ran a usability study of Portuguese e-commerce websites and helped create the intranet for the largest private bank in Portugal.

COMMUNITY & TEACHING

Founder & Board Member · Portuguese Usability Professionals Association

2005 – 2017

Tutor / Trainer · EDIT. — “Foundations of UX”, Lisbon & Oporto

2015

Occasional workshops, mentoring, lectures and talks on user experience.

EDUCATION

Master's Degree, Ergonomics / Human Factors

1998 – 2003

Faculdade de Motricidade Humana, Lisbon

Expert, User Experience · User Focus / Udemy

2015 – 2016

Curso Intensivo de Usabilidad · Evolucy, Madrid

2005

Biotechnological Engineering · Universidade Lusófona de Humanidades e Tecnologias

1997 – 1998
