I lead the entire Product Design team at Dashlane, covering both B2C and B2B, on a mission to make the internet a safer place by protecting companies and individuals from breaches, phishing and other risks. I build design organisations and the platforms they work on: I helped grow design at Talkdesk from 4 to nearly 70 designers, built two multi-platform design systems from scratch, and I'm now leading how AI changes both our product and the way we work.

EXPERIENCE

Dashlane

Jan 2023 — Present

Director of Product Design
Lisbon, hybrid

- Lead the entire Product Design team across B2C and B2B, with seven direct reports in Portugal and France. Set vision, direction and roadmap in a triad with Product and Engineering leadership.
- Lead the AI transformation of Product & Design: new ways of doing discovery, prototyping in code and testing with users, plus a shared AI skills repository used across product, research, design, marketing and CX.
- Took the design system from 5 low-adoption components to a multi-platform system covering 95%+ of product pages across Figma, web, iOS and Android, and am now adapting it to be used by AI agents alongside humans.
- Turned designers working in silos into one practice, with regular critiques, design studio hours and cross-triad pair design.

FIDO Alliance

Mar 2025 — Present

UX Working Group
Member · remote

Representing Dashlane in the UX Working Group, helping shape the global UX strategy for passkeys and passwordless authentication: shared UX/UI standards, usability research and design guidelines that reduce reliance on passwords.

EXPERIENCE, CONTINUED

Talkdesk

Sep 2017 — Dec 2022

Five roles over 5 yrs 4 mos · contact-center SaaS · Lisbon, remote

Director of Product Design

Apr 2022 — Dec 2022

Led the CCaaS design team, with 11 direct reports, for the experience of contact-center agents, supervisors and administrators, fully remote. Directed strategy and operations for design teams in the USA and China, and partnered with Product and Engineering directors to align design with the CCaaS strategy. Helped grow design from 4 to nearly 70 designers across six business units.

Associate Director of Product Design

Jan 2021 — Apr 2022

Moved onto the management track while still leading design for the agent experience, and led the UX/UI architecture of Talkdesk Workspace across the Agent cluster.

Lead Product Designer

Jan 2020 — Dec 2020

Managed the CCaaS product design team and was lead designer for the Talkdesk Workspace agent applications.

Senior Product Designer

Sep 2017 — Dec 2019

Main designer for the agent experience, focused on the productivity and well-being of contact-center agents. Helped design, build and maintain Cobalt, Talkdesk's design system, from the ground up, so designers could spend their time on experiences instead of pushing pixels.

Bright Pixel

Mar 2016 — Jul 2017

User Experience Lead

Led the UX and Media teams building user-centred content creation and management tools alongside journalists and editors, on projects for Público and the Google Digital News Initiative. Helped incubated startups across media, retail, advertising and telco solve their UX challenges.

Graf.ly

Apr 2016 — Jul 2017

Co-Founder & CEO

A content creation tool for journalists and editors in the newsroom. I owned product definition and user experience alongside the CEO role, including pitching to investors and clients. Winner of Road2WebSummit; incubated startup at the Lisbon Challenge; Alpha Start-Up at Web Summit Lisbon.

SAPO — Portugal Telecom

Mar 2009 — Mar 2016

Head of UX & QA

Sep 2010 — Mar 2016

Built and managed a user-experience team specialised in web, mobile and IPTV usability across SAPO's product portfolio and the MEO TV platform: user testing, heuristic and expert reviews, wireframing, prototyping and accessibility validation, plus day-to-day support for designers and engineers. Wrote the ux.sapo.pt usability guidelines, later adopted as a reference by the Portuguese public-administration guidelines (AMA).

UX Designer

Mar 2009 — Aug 2010

Brought UX practice into SAPO and the wider Portugal Telecom group, from B2C (MEO) to enterprise (PT Empresas), making design, engineering and product teams fluent in usability and accessibility.

EARLIER

Founder · MyTVShows, self-employed 2007 — 2014

A web app for keeping track of the episodes of every TV show you were following, roughly what Trakt.tv does today.

Usability Consultant · log, Lisbon 2004 — 2009

Usability consultant and user-centred designer for the web, focused on usability, web standards and accessibility. Designed the Portuguese National Archives websites.

Industrial Ergonomics Consultant · Volkswagen Autoeuropa, Palmela 2003 — 2004

Ergonomic analysis of the paint-line workstation, where workers were reporting stress and strain musculoskeletal disorders in the lower limbs.

Researcher / Consultant · Ergolab, Oeiras 2002 — 2004

Ergonomics research across several areas: usability analysis for multiple websites, plus usability consulting and beta testing for an educational videogame.

Junior HCI Consultant · IconMedialab, Lisbon 2002 — 2003

Ran a usability study of Portuguese e-commerce websites and helped create the intranet for the largest private bank in Portugal.

COMMUNITY & TEACHING

Founder & Board Member · Portuguese Usability Professionals Association 2005 — 2017

Tutor / Trainer · EDIT. — “Foundations of UX”, Lisbon & Oporto 2015

Occasional workshops, mentoring, lectures and talks on user experience.

EDUCATION

Master's Degree, Ergonomics / Human Factors 1998 — 2003
Faculdade de Motricidade Humana, Lisbon

Expert, User Experience · User Focus / Udemy 2015 — 2016

Curso Intensivo de Usabilidad · Evolucy, Madrid 2005

Biotechnological Engineering · Universidade Lusófona de Humanidades e Tecnologias 1997 — 1998
